to all the items of that bill. We would be bound to pro-
ducing legislation in the area of health insurance in the
State of Nebraska. Senator Murphy's bill, as I understand
it, addresses most of the issues relative to health insurance
within the state and relative to the state's relationship to
the Federal government. I think those are the issues.
Senator Murphy's bill, as I understand it, would bring most
of those issues or at least create a starting point for it.
It's probably a more efficient manner than a resolution
would could get unwieldy into the specific items that you
would want to cover. I think it's a good starting place.
In this particular case of a highly complicated issue, it
at least draws the line from which we can proceed in any
intelligent study. Under those circumstances I would
support the introduction of the bill. I don't think that
anybody is bound to the particularities of the bill by
voting for its introduction.

PRESIDENT: Senator Murphy, do you want to close by way
of reply.

SENATOR MURPHY: I will close very briefly and would add
that the various segments of this industry, who have been
involved in this thing, have prepared testimony that is
current that is based on a situation today that I think
should be received today. I think their public testimony
should be part of this record when it comes on to the floor.
I will support this bill for purposes of information on
this floor.

PRESIDENT: The question is the request of Senator Murphy,
request number 570, for the introduction of the bill under
discussion. Record your vote. Record Mr. Clerk. Senator
Murphy.
